Innovative Centrifuge Solutions for Demanding Industries

As we continue to grow and expand our capabilities, it is an exciting time for CentriTEK. We extend our sincere thanks to our valued customers, trusted partners, and dedicated employees for their continued support and confidence in our team.

Together, we remain committed to delivering reliable, high-performance centrifuge solutions for industrial solid-liquid separation applications across the globe. Through innovation, technical expertise, and exceptional service, CentriTEK continues to help customers maximize performance, improve reliability, and achieve operational success.

Industry Focus

Smart Separation for Modern Operations

Industries such as chemicals, pharmaceuticals, mining, wastewater treatment, food processing, and energy face increasing pressure to improve efficiency, reduce waste, and meet stricter environmental regulations.

Our industrial centrifuges are engineered to help you:

- Achieve higher solids recovery
- Improve process consistency and product quality
- Reduce downtime and operating costs
- Support sustainable and compliant operations

From continuous decanter centrifuges to high-speed separation systems, our technology is designed to perform in the most demanding environments.

CentriTEK Announces: Exclusive Partnership with Hiller Separation Process

CentriTEK is proud to announce its new partnership with HILLER Separation & Process and has been appointed the exclusive representative for HILLER in the Western United States. For more than 50 years, HILLER has been globally recognized for designing and manufacturing technologically advanced decanter centrifuges for demanding solid-liquid separation applications.

Through this exclusive partnership, CentriTEK now offers HILLER's complete line of 2-phase and 3-phase decanter centrifuges, providing customers with proven efficiency, exceptional quality, and industry-leading expertise for applications in food and beverage processing, fats and proteins, environmental services, petrochemicals, and other industrial markets.

Together, HILLER and CentriTEK are committed to delivering innovative separation solutions backed by local service, technical support, and trusted industry experience.

TOP NEWS

CentriTek in Action:

The momentum continues at CentriTEK as we expand our capabilities, strengthen customer support, and connect with industry leaders across the country.

Expanding our Rental Fleet

We're growing our rental offerings with the addition of new Centrisys/CNP CS18-4 centrifuge systems. Available for both 2-phase and 3-phase applications, these units provide customers with flexible, reliable solutions for demanding separation processes.

Delivering Service Excellence

Our service team has been hard at work completing dynamic balancing, rotating assembly restoration, and comprehensive refurbishment projects. These efforts help customers maximize equipment performance, improve reliability, and extend the life of critical centrifuge assets.

Connecting with Industry Partners

CentriTEK continues to engage with customers, partners, and industry professionals at key events throughout North America. Recently, our team participated in the Pacific Northwest Clean Water Association Conference and the North American Renderers Association Convention, discussing innovative separation technologies and service solutions that help organizations operate more efficiently.

Thank you to our customers, partners, and industry colleagues for your continued trust and support. We look forward to helping you achieve greater performance, reliability, and operational success.

Let's Talk Separation

If you would like to discuss your application or schedule a consultation, our team is ready to help.

More Than a Tagline - A Commitment

At CentriTEK, adding value isn't just something we say—it's the standard that guides every customer interaction. Whether we're responding to an urgent service call, optimizing equipment performance, or helping customers plan for future growth, our goal remains the same: deliver expertise, reliability, and measurable results.

The feedback we receive from customers reinforces that commitment every day:

"Reliable service and unmatched expertise—CentriTEK always delivers when we need them most."

We are grateful for the trust our customers place in us and proud to serve as a dependable partner in their operations. As we look ahead to 2026, we remain focused on helping our customers maximize performance, minimize downtime, and achieve long-term success.

Thank you for being part of the CentriTEK community. We look forward to continuing to grow, innovate, and succeed together.

From the Desk of the Team

At CentriTEK, we're passionate about one thing: helping your operations run smoother, longer, and smarter.

With more than three decades of experience specializing in horizontal decanter centrifuges, we have built a reputation founded on integrity, honesty, quality workmanship, and transparency. Our team is committed to delivering exceptional service, deep technical expertise, and responsive support that helps customers maximize performance, minimize downtime, and extend equipment life.

Whether it's routine maintenance, emergency repairs, equipment optimization, or long-term reliability planning, CentriTEK partners with customers across a wide range of industries to provide practical solutions and measurable results. When your operation depends on centrifuge performance, you can count on CentriTEK to keep you running at your best.
